

From the Pathfinder Chronicles:  
It is rumored that Lamashtu was once a demon lord who wrested a shard of divine power from an ancient god of beasts. Whatever her origin, she is now called the "Mother of Monsters" by her followers and is the patron deity of many misshapen and malformed creatures of Golarion.

Lamashtu's dark-hearted minions will go to any lengths and endure heinous amounts of pain and suffering to create chaos and destruction in the name of their Demon Queen.
