

From the Pathfinder Chronicles:
Black dragons prefer damp heat and are usually found in warm marshlands or swamps. They have the ability to project hissing green acid from their insides, a horrifying attack that can melt flesh almost instantly. The acrid smell of death hangs over these dark-scaled beasts. Avoid at all costs.

ROOOOOO
AAAARI!

STAY SHARP!

SARENRAE
BLESS MY ALLY
WITH THE
STRENGTH OF
THE BULL!

YRR
YK

I'LL USE
IT WELL.

WE'RE
GOING
TO DIE
HERE...

NO.

TAKE
COVER!
HE'S--

FWOOOSH

BY THE GODS...

AND THEY SAID I SHOULDN'T CARRY SO MUCH.

HA!

DAMN SUPPLIES JUST SAVED M' LIFE!

WHAM

OOF!

A MOMENTARY SURVIVAL AT BEST, DWARF!

CRUNCH

UNGI!
